This is the first mail to you from Japanese women of 52 years old.

Japanese are completely misunderstood by some Korean people and others who believe the wrong historical story of comfort women in the war.

They are not “forced” .

They had previous notice about what to do and had appropriate compensation.

I know well it is not a good thing and I do not like it, but please remember there are a lot of women forcibly raped in wars.

Please learn again about the correct history and please consider again about the education to the young people in your country **for the peace of the world.**

This is one of the real earnest opinion of Japanese woman.

I am proud of Japan.

Thank you for your reading.

Sincerely,
